# **Security Package 2010/2011**

Serial	Algorithm	Input		
		Plaintext	Key	Marks
1	General Ceaser.	Text	integer	2
2	Monoalphabetic.	Text	Text	2
3	Autokey vigenere.	Text	Text	2
4	Repeating key Vigenere.	Text	Text	2
5	PlayFair.	Text	Text	3
6	Hill Cipher.	Text OR Numbers	Text OR Numbers 2X2 OR 3X3	4
7	Rail Fence of depth Level n.	Text	Integer (n)	4
8	Columnar	Text	Integers	4
9	DES.	<b>Text OR HEX</b>	Text OR HEX	5
10	Multiplicative Inverse using Extended Euclid's.	Integers (No., Base)		2
11	AES.	Text OR HEX	Text OR HEX	5
12	RC4.	Text OR HEX	Text OR HEX	4
13	3-DES.	Text OR HEX	Text OR HEX	4
14	RSA.	Integer	's (p, q, M, e)	5
15	Diffie-Hellman key exchange.	Integers (q, α, Xa, Xb)		3
16	Elliptic curve cryptography (Key Exchange – Enc. /Dec.)	Integers (q, a, b, k, na, nb) Points (G, Pm)		6
17		Oral	3	
18		Total		60

**Prof.Dr. Mohamed Hashem** 

T.A. (Eslam Gamal - Mohamed Saber - Heba Essam - Yara Medhat)

## **BONUS**

Serial	Item	Notes	Marks	
1	<b>Inverse Matrix</b>	If you calculate inverse matrix by	3	
	Calculation in Hill cipher	code.	3	
2	Multiplicative Inverse			
	Using Extended Euclid's	sing Extended Euclid's		
	with polynomial			
3	SHA-1		4	
4	Digital Signature		4	
5	Application	File Enc./Dec. (1)		
		Image Enc./Dec (2)	7	
		Audio Enc./Dec (2)		
		Video Enc./Dec (2)		
6	Code Style	OOP Design – Code Documentation	3	
7	Interface		3	
8	Total		27	

### **Notes:-**

- 1- Bonus total = 20 Marks.
- 2- Max. Allowed bonus to group is (10) marks.
- 3- The other (10) marks will be used in ranking top (5) packages.
- 4- In application input (file image video audio) then encrypt and decrypt it.

## For examples:-

- 1- If group got (40/60) in package and in bonus (15/20) then total mark for this group will be (40 + 10 = 50/60).
- 2- If group got (60/60) in package and in bonus (20/20) then total mark for this group will be (60 + No Bonus = 60/60). The extra marks will be used in top (5) ranking.
